

LIST OF COUNTRIES FOR FOREIGN TRADE AND PAYMENTS STATISTICS OF THE FEDERAL REPUBLIC OF GERMANY¹

(Payments from/to international organisations, see footnote 2)

I The numerical code applies to all foreign trade and payment reports submitted on paper (including computer-generated paper reports)

II The ISO alpha-2 country code is currently permitted only for reports submitted in paperless form.

* Changes to the list of countries as per October 2011 are marked with *.

¹ Based on the list of countries for the foreign trade statistics of the Federal Republic of Germany (Federal Statistical Office). - For the allocation of individual areas to specific countries see: "Alphabetisches Länderverzeichnis für die Außenhandelsstatistik" produced by the Federal Statistical Office.

² Payments from/to international organisations should be shown in the reports under the special country code (see column "num code" in the "List of Codes for International Organisations").

³ Temporary code, which does not anticipate the final country designation.

⁴ The country codes "106 - U1" required for credit institution reports pursuant to section 18 of the Bundesbank Act may also be used.

⁵ Country code differs from the code given in the country list for external trade statistics.

⁶ Including Jungholz and Mittelberg.

⁷ You can use a common code for Serbia including Kosovo: Num. Code: 099; ISO-alpha-2-code: RS; Country abbreviation: SerKos

The country list is for statistical purposes only. The designations do not constitute any confirmation or recognition of the political status of a country or the borders of its territories.

⁸ This code should only be used in agreement with Deutsche Bundesbank.
