Investment of overnight funds with the Bank

Article 1

Scope of services

The Bank offers customers who hold a giro account with it a facility for the automatic investment of overnight funds with the Bank ("tier one" overnight investment). Customers must have consented to a limited disclosure by the Bank of their identity to the Eurosystem central banks for the following legitimate purposes: (a) analysis of tier one overnight investment usage, (b) protection of Eurosystem Reserve Management Service providers and respective customers from damage through cyber incidents and (c) support of lending/repo operations with the customer.

Article 2

Limits

Only credit balances up to a certain maximum amount (maximum investment amount) are eligible. The Bank shall inform the customer separately of the initial maximum investment amount as well as any changes (usually on a quarterly basis).

Article 3

Automatism, interest

- (1) Up to the maximum investment amount, the balance on the customer's giro account at the end of a business day shall be automatically included in the tier one overnight deposit (investment amount). A separate instruction by the customer is not required.
- (2) The investment amount earns interest pursuant to the Interest Rate and Price Schedule.
- (3) The funds are invested until the next business day.
- (4) Interest is credited to the customer's giro account on the first business day of the following month.

- (5) If a fee is payable on the balance in the tier one overnight deposit (“negative interest”), then paragraphs 2 to 4 shall apply subject to the proviso that no interest shall be payable and the customer shall pay a fee pursuant to the Interest Rate and Price Schedule, which the Bank shall debit to the customer’s giro account on the first business day of the following month.

Section II
Investment of fixed-term deposits with the Bank

Article 4
Scope of services

- (1) The Bank offers customers that have made the relevant selection in the Participation Agreement a facility for the investment of fixed-term deposits upon special request by the customer. A precondition of this facility is the maintenance of a giro account at the Bank. The minimum investment amount is one million euro. The Bank is entitled to determine a maximum amount the customer may invest with the Bank by making use of the facility. The Bank will inform the customer about the maximum amount and changes in respect of this amount separately. Investment amounts have to be a multiple of €50,000. The Bank may refuse to accept fixed-term deposits if, in the Bank's judgement, this is necessary with a view to the market situation.
- (2) The fixed-term deposits must have a maturity of at least one day and no more than twelve months.
- (3) Fixed-term deposits may be invested:
 - (a) "with the option of premature termination" for fixed-term deposits with a maturity of between seven days and one month,
 - (b) "without the option of premature termination" for fixed-term deposits with a maturity of between one day and twelve months.

- (3) The Bank issues the customer with an order confirmation containing the information specified in paragraph 2 and the applicable interest rate pursuant to the Interest Rate and Price Schedule or the fee to be paid by the customer ("negative interest") pursuant to the Interest Rate and Price Schedule. The Bank may apply a different rate if, in the Bank's judgement, this is necessary with a view to the market situation. The Bank shall inform the customer in advance and shall specify the business day as of which such divergent interest rate shall be applicable.

Article 6
Settlement of the fixed-term deposits

- (7) Upon maturity of the fixed-term deposit, the Bank shall credit the invested amount, taking into account the calculated interest, to the customer's giro account.
- (8) If a fee is payable on the investment ("negative interest"), then paragraphs 1 and 2 shall apply subject to the proviso that the customer shall pay a fee pursuant to the Interest Rate and Price Schedule and the Bank shall credit the investment amount *minus the fee* to the customer's giro account on the maturity date.

Article 7
Premature termination of fixed-term deposits

- (1) In the case of fixed-term deposits "with the option of premature termination" (see Article 4 (3) (a)) the customer may terminate the fixed-term deposit prematurely subject to a notice period of two business days. - (3) The investment is effected by the Bank for the account and at the risk of the customer. The Bank assumes no guarantee, surety or liability of any other kind for the fulfilment of the repayment obligation by the credit institution with which the tier two overnight deposit is placed in accordance with article 8 et seq. of this Product Annex.
- (4) Within the meaning of this section, the term credit institutions also comprise domestic governmental debt management institutions.

Article 8 (1) with a list of eligible institutions and will inform them about changes to the circle of counterparties.

- (2) The Bank is also entitled but not obliged to distribute the investment amount among several credit institutions within the meaning of paragraph 1, or to deposit the investment amount together with those of other customers, or to combine both of the above. In such cases, the customers' investment amounts at each of the credit institutions shall be deemed to be invested pro rata in proportion to the investment amounts. In such cases, remuneration is calculated on the basis of the weighted average of the market rates achieved in accordance with the Interest Rate and Price Schedule.
- (3) If the credit standing of a credit institution within the meaning of paragraph 1 deteriorates to such an extent that the requirements stipulated in paragraph 1 are no longer fulfilled, the Bank shall cease to conclude any new transactions with this counterparty.
