***** Sources: Federal Statistical Office and Bundesbank calculations based on data from the Federal Statistical Office. **1** Also includes goods which cannot be classified and additional estimates for transactions which failed to be reported, and transactions which do not have to be reported statistically. From January 2007, excluding repair and maintenance work. **2** The allocation of groups of goods from GP 2002 to main industrial groupings (MIGs) is carried out pursuant to Regulations (EC) No 586/2001. For GP 2009, this classification is based on Regulation (EC) No 656/2007. **3** Data at the current end increased by Bundesbank estimates. **4** The following principal changes have been made in comparison with GP 2002: intermediate goods including electronic inductors, electric motors, generators and transformers, excluding tools for construction and mining machines, electrical equipment for motor vehicles and motor vehicle engines; capital goods including watches and clocks, seats for motor vehicles, tools

1 Incl. freight and insurance costs of foreign trade, see "Explanatory notes and lists". **2** The sub-items of serivces do not add up to the aggregate because – due to methodological reasons – the construction item reports only the net receipts of domestic companies for construction services abroad and net expenditure to foreign companies for construction services in the reporting country. **3** Incl. fees for processing goods that are not owned by the processor. **4** For a breakdown of transport services and comments, see table II. 3b). **5** Since 2001, the sample results of a household survey have been for expenditure. For further comments on foreign travel, see tables II 6c) and

II. 6d). **6** Service components included in premium payments. Net premiums and insurance benefits are recorded under secondary income and – in the case of life insurance – in the financial account. Since 2014, incl. insurance commission. **7** For more detailed information on financial intermediation services indirectly measured (FISIM), see "Explanatory notes and lists". **8** Industrial and other property rights. No distinction between usage and sale of intellectual property before 2013. **9** Since the reporting year 2021 estimated to a large extend.

II. Current account

1 Until 2012, only goods exported for repairs. **2** Since 2014, construction sites that exist for less than one year are recorded as services. New investment and disinvestment in construction sites that exist for more than one year are recorded as direct investment (see table IV. 1b)), while the corresponding profits are recorded as primary income (see

II. Current account

3. Services
a) Overview

€ million

***** The transactions summarized here within the framework of the EU budget originate from services, primary income, secondary income, and the capital account. Refunds of collection costs are recorded as service revenues in the balance of payments; contributions from the Regional Fund and the European Agricultural Guarantee Fund (EAGF) are recorded in the capital account under capital transfers. For the implementation of certain reforms and investments (climate protection, digitalization, etc.), the EU provides funds under the Recovery and Resilience Facility. Depending on their use, these are classified as secondary income or capital transfers. Taxes on goods (customs duties), VAT contributions, GNI contributions, and the plastic levy are regulated revenues of the EU and form the financial basis of the EU budget.
