* These data stem from the semi-annual OTC derivatives statistics of the Bank for International Settlements (BIS). Approximately 74 leading banks domiciled in the G-10 countries report these statistics (on group basis, i.e. including branches and subsidiaries); these institutions account for a share of more than three-quarters of the global OTC derivatives market. Five German banks actively involved in the derivatives

business participate in the survey. Data are collected on OTC contracts outstanding at end-June and end-December. **1** From mid-2004 including credit derivatives. **2** Outright forwards and FX swaps, currency swaps and currency options. **3** Forward rate agreements, interest rate swaps and interest rate options. **4** Only

credit default swaps. The data are recorded for the first time for the second half of 2004. ⁵ Forwards, swaps and options. ⁶ Transactions between reporting institutions which are reported by both counterparties involved are recorded only once in the statistics. Conversely, the results of the German reporting institutions shown in the

lower part of the table contain certain double countings; covering transactions with the five German reporting banks concluded with each other. ⁷ Including insurance corporations. ⁸ Up to and including June 2017 excluding "other" contracts valued by the BIS.
