Special cases

From 2020 on research datasets shall provide ISO-3166 two-letter code. However, there are additional codes beginning with ‘X’ that are requested by the European Commission for some statistics and the breakdown of countries may vary between datasets. For bank related data it is important to have separate data for Guernsey, Jersey and Isle of Man, whereas researchers of the real economy have an interest in small territories like Ceuta and Melilla that are not always covered by ISO-3166. Countries that are treated differently in different statistics are described below. These are

- United Kingdom of Great Britain and Northern Ireland
- France
- Spain
- Former Yugoslavia
- Serbia

United Kingdom of Great Britain and Northern Ireland. Since 2003 the tax havens Guernsey, Jersey, and Isle of Man have to be reported separately. Before they had been subsumed under United Kingdom of Great Britain and Northern Ireland though not being part of this territory.

up to December 2002
