-9999	Dropout: The respondent did not answer the question due to dropout
-9998	No answer: The respondent clicked on "keine Angabe" instead of answering the question
-9997	Don't know: The respondent clicked on "weiß nicht" instead of answering the question
-6666	Does not apply: The question or response option was not shown to the respondent due to filters or prior item-nonresponse
-5555	Recoded by BBk: A coding or data error that was recorded by the Bundesbank

### 2. Legend for question header:

Each question header includes information on the name of the question, whether it was part of the core questionnaire ("CORE"), included for a specific project ("PRO"), or part of descriptive statistics ("DESCRIPT"), the broad topic and the variable name(s).

Legend	Question name	Question source	Topic	Variable name
<b>Example 1</b>	003	CORE	Perceived problems	percprob_[a-j]
<b>Example 2</b>	103	PRO	Supply chains qualitative	suppchains_[a-b]

### 3. Question filtering and coding:

Coding details, filters and conditional redirects are highlighted by *Courier*. If questions are posed to all respondents, this is not explicitly stated. For filtered questions, the filter is listed at the top and refers to the question name, e.g.:

<b>103</b>	<b>PRO</b>	<b>Supply chain problems domestic or foreign</b>	<b>suppchain_[a-b]</b>
Input filter: 001_d = 6   7   8   9   10			

### 4. Variable names

Variable **names** are indicated in the top right corner. In case the question has multiple items, the items are indicated by underscores and a **letter**. Enumeration letters correspond to variable names. The **coding** of the variables is numeric and indicates the scale.

<p>In order to complete the information we collect, we need to categorise it. When evaluating the results of the survey, the Deutsche Bundesbank would therefore like to feed in data it has obtained through fulfilling its tasks and which are saved in a separate database of enterprises at its premises in Frankfurt. If you do not consent to this, the Deutsche Bundesbank will rely on you to categorise this information yourself by means of additional questions. As you can see, these questions relate to the size, balance sheet, legal form, economic sector and other structural details of your enterprise. We require your consent to feed these data into the survey data.</p> <p>The information is compiled at a data trustee unit – the Deutsche Bundesbank’s Research Data and Service Centre (RDSC). The security of your data is ensured when this information is subsequently processed at the RDSC. Of course, your consent is voluntary. You may withdraw it at any time. However, withdrawing your consent shall not affect the lawfulness of any processing that has taken place on the basis of this declaration of consent before it was withdrawn.</p> <p>1 = yes, consent granted.  2 = no, consent not granted.  3 = I am not authorised to grant consent.</p>
