

# Managing money

## Film: Budgeting

### Total assets

Michael dreams of buying a fitness machine for €300. However, he has just €153 in his account.

1. He considers whether his total assets would be enough to make the purchase.
  - a) Michael takes photographs of the items he could sell. Estimate what they might be worth.

- b) After counting his cash, he starts to calculate.

Would his total assets be enough to buy the fitness machine?

- c) Would you advise Michael to sell everything he owns to buy the fitness machine? Explain!
