Call for Papers

Macroeconomic Stabilization in the Presence of Fiscal and Geopolitical Risks

Deutsche Bundesbank, Eltville, 3rd – 4th June 2027

Danmarks Nationalbank, Deutsche Bundesbank and Norges Bank invite submissions for the 14th edition of the *New Developments in Business Cycle Analysis* conference series. The 2027 meeting will focus on macroeconomic stabilization in the presence of fiscal and geopolitical risks. Theoretical and empirical contributions are welcome. Relevant topics include, but are not limited to:

- *Fiscal and Monetary Policy Interaction*
- *Geopolitical Risks and Economic Fragmentation*
- *Energy and Commodity Price Shocks*
- *Financial Stability and Systemic Risk*
- *Public Debt Sustainability and Sovereign Risk*
- *Expectations, Credibility, and Policy Coordination*

Stephanie Schmitt-Grohé (Columbia University) and **Leonardo Melosi** (European University Institute) will be the keynote speakers for the event.

Papers for submission should be uploaded by January 15, 2027, at ConfTool. Authors of **accepted** papers will be notified by **February 15.** A discussant will be assigned to each presenter. Travel and accommodation expenses will be reimbursed for academic participants, subject to a cap. The program for the previous edition of the *New Developments in Business Cycle Analysis* conference is available here.

Program Committee: *Renato Faccini (Danmarks Nationalbank), Francesco Furlanetto (Norges Bank), Mathias Hoffmann (Deutsche Bundesbank), Patrick Hürtgen (Deutsche Bundesbank), Martin Kliem (Deutsche Bundesbank).*
